<p>1. In accordance with the Station's request, we have reviewed Headquarters files on the financial arrangements made with AEDOGMA/1 from the inception of the contact with the agent. In 1947, 1948 and part of 1949, AEDOGMA/1 was paid in commodities such as meat, coffee, sugar and cigarettes. In April 1949 he was officially dropped as one of the Station's paid sources. He was recontacted in February 1950 and was given a "salary" of 8 cartons of cigarettes a month, retroactive to 1 January 1950. In July 1950 this allotment was doubled and he received 16 cartons of cigarettes monthly which he was, of course, selling on the open market. In April 1951, Munich requested authorization to place AEDOGMA/1 on agent status with a monthly salary of 250 DM, plus the usual personal ration of cigarettes and coffee. The request was approved by Headquarters and the payments were to be made retroactive to 1 January 1951.</p> <p>2. In November 1952 Munich requested authority to give AEDOGMA/1 600 MPC for the travel expenses of his wife who was to visit her father and brother in Canada. This advance was deducted from AEDOGMA/1's dollar credit in the U.S., leaving a balance at the end of 1952 of \$600, as set out in the attachment to EGMA-11262. We have provided this rather complete description of the early financial arrangements with AEDOGMA/1 for the Station's use in combatting any arguments he may give you on the subject.</p> <p>3. We regret that we now have to present you with what may be another problem in this case. In reviewing the files during the termination process here at Headquarters, it was discovered that we</p>
